

MEDICAL ACTION PLAN

PROCEDURE FOR SUPPORTING STUDENTS WITH SPECIAL MEDICAL NEEDS

Definitions

Special Medical Needs:

Acute and chronic medical conditions that demand emergency attention. Conditions may need daily medical intervention or instant intervention such as use of an EpiPen for anaphylaxis.

Dependent:

A child who needs an adult to administer medical treatment.

PRINCIPLES

The current practice and routines for students with special medical needs within Liwara Catholic School is based on the following principles:

1. Liwara Catholic School does not have medical personnel on staff.
2. School staff have no medical qualification. They may offer assistance but it will be limited to their knowledge, skill and school resources.
3. Parents accepting staff assistance must assume full responsibility themselves.
4. Whilst the student is dependent, the parent or nominated family member/adult will administer any required daily medical procedure.
5. When the student is independent, he/she will self-administer medical procedures under the supervision of a willing staff member in a designated private contained area, according to a written plan authorised by a medical practitioner.
6. Parents will provide and maintain all medications and equipment required.

PROCEDURE

1. An individual daily management and emergency action plan must to be established by the student's medical practitioner. The school cannot assume responsibility to provide support in the absence of an authorised plan.
2. Plan proforma with minimum details required must be completed. See appendix A.
3. A copy of this plan signed by the parent should be present in the classroom and office along with a photo of the child.
4. Parents must contact class teachers to update individual plans by Week 2 Term 1 each year.
5. The School will compile emergency procedure folders by Week 3 Term 1 and ensure all staff are aware of folder locations.

APPENDIX A:

MEDICAL ACTION PLAN - ACUTE CONDITIONS

(photo)

(Requiring ongoing daily treatment or immediate emergency response)

STUDENT NAME: Joanne Warkill

CLASS: 3

CONDITION: Tick-borne rickettsioses

Emergency Action Plan: (to be undertaken in life threatening situations)

Step 1: _____

Step 2: _____

Step 3: _____

Step 4: _____

Other specifications to be included in Action Plan (eg parent to accompany child on excursions/camps if necessary etc)

PARENT AGREEMENT:

- I have read the Liwara Procedure for Supporting Students with Special Medical Needs and accept the conditions.
- Whilst my child is dependent I, as the primary care giver will administer daily needs relevant to his/her medical condition.
- I understand supervision of treatment and emergency action will be undertaken by non medically qualified staff and within in the constraints of other duties.
- I undertake to check and maintain necessary equipment regularly and replace immediately after use.
- I give permission for my child's photograph (supplied by me) and details of their medical condition to be displayed in appropriate places for staff information.
- The Emergency and Supplementary Action Plan has been approved by my child's doctor.
- I undertake to keep all relevant medical information and contact details current.
- I will accept the costs of an ambulance if the school deems it necessary to call one.

PARENT'S NAME: Lawrence Chitura
